From the Washington Union. The Tariff Discussion-Are the Agriculturalists to be Excluded ?

We think it a little remarkable that a certain class o public journals confine their complaints about "hard times" and the depression which prevails in the general industry of the country exclusively to certain great branches of manufactures. A very large majority of the American people are employed in agricultural pursuits. This class constitute the chief consumers, and, of course, pay a large proportion of all the revenues collected by the federal treasury. We have a habit in this democratic country of awarding special interest and sympathy to prominent business men, particularly those who invest their capital in large corporations, of whatever kind. The principle which controls us in this respect is correctly stated by saying that money is more commanding and powerful than men. It has been a prominent feature of American politics, originating with Mr. Alexander Hamilton, that money should be recognized, not only as entitled to special protection, but also as a positive element in the government. He advocated the establishment of the Bank of the United States, and called it in his first great report on finances and revenue a "political machine," intended to win over to the new republic the allegiance of the money classes, and, through them, the great mercantile interests which it was thought would be dependent upon them. Mr. Hamilton not only avowed these doctrines, but recommended the enactment of protective laws with the express intention of aiding, by such legislation, the manufacturing industry of the country. He was candid enough to say that protection to one class was a tax upon another; that, while manufacturers were receiving benefits in that way, the great primary labor of agriculture would have to foot the bills. Mr. Hamilton was told that it was a dangerous principle to introduce into the government-that of charging indirectly one set of men to put money into the hands of another. He answered that the agriculturists -the farmers-constituted, and would always constitute. a large majority of the American people, and that they would have it in their power, at any time, to repeal such laws, and thereby produce equality of burdens under the government. He acknowledged that direct bounties to manufacturers would, on many accounts, be preferable to protective laws; because they would be more economical of the Boston " Society for the Prevention of Pauperand less onerous upon the producing and consuming ism," the reports presented the following facts:

purpose to discuss the questions of political economy involved in the present revenue laws. We desire only to call public attention to the general subject, and to point out the objectionable manner in which it has been presented to the country by the opposition journals.— When the matter is considered, it should be by the whole people, by all classes who are interested in its final settlement. We want no snap judgments—no legislation in the midst of the storm to govern us in the succeeding ealm. It may be well in the hour of peril, to put the ship under short sail; but when the gale subsides, a good turer of a real hair restorer—a restorer of color as well as track, and back of the above is a fine SWAMP, with a heavy commander will again crowd on the canvass. Our readers we doubt not, have marked with eager interest the almost daily report of the electricians connected with the Atlantic Telegraph, announcing the continued state of suspension in which its successful workstate as for what they contain, that the great mass of the public have most probably brought themselves to the unwelcome conviction that the first Atlantic Telegraph, recently inaugurated with so many demonstrations of joy, has proved a partial failure. REVIEW OF THE WILMINGTON MARKET,

FOR THE WEEK ENDING OCTOBER 28TH, 1858.

TURPENTINE .- As will be seen from our table of sales below feeling among buyers, the price went up 5 cents, with sales at \$3 05 for virgin and yellow dip, and \$1 75 for hard. There has since been a moderate demand for distilling purposes, and about all received taken at above prices. The water courses continue very low; scarcely any arriving from above tide way, consequently the receipts have been small, and the scales for the week ended this receipts have been small, and the sales for the week ended this morning reach only 2,599

bbls., as follows: Virgin. Yel. Dip. New Hard. 342.....\$3 00.....\$3 00......\$1 75 800.......... 3 00....... 3 00....... Monday..... 707...... 3 05..... 3 05...... 1 75 Tuesday..... 650...... 3 05..... 3 05...... Wednesday... 100....... 3 05...... 3 05...... 1 75

Common also have been meagre, and the supply at present on market is quite small, and is mostly in the hands of one or two parties, who are holding at higher prices than buyers seem disposed to give. The only sales we hear of are Wheat is quiet but steady-Red Western 5s 2d a 6s 6d as follows: Friday 600 bbls., Monday 2,000 do., and Wed- White Western 6s 3d a 6s 6d; Southern 7s a 7s 3d. Cornnesday 600 do. at \$1 20 for large size bbls.

TAR-Continues to be in brisk demand, and only small parcels have been received for some time past. Only 33 | 3s 10d a 4s; Linseed Oil is dull at 32s 6d a 33s. Turpentine bbls, received and sold at \$2 25 per bbl.

BEEF CATTLE, &c .- The market continues to be poorly supplied with beeves, the receipts for some time past having been meagre, and butchers have very few on hand at present ;- we note a fair demand, and a good article would sell readily at a fair price. Only one or two small parcels brought in during the week, and sold at 51 a 6 cents. We quote at 5 to 7 cents \$ 15., according to quality. No SHEEP arriving: there is, however, scarcely any demand ex-

for Spirits Turpentine barrels. The quantity received during the week has been small, and there is a very light stock on market—the larger portion of which are of inferior quality. We note a moderate demand for selected, but no sales, dealers prefer to sell them as they are received. We quote small sales of second hand ones at \$1 60 a \$1 70 as

COFFEE-Of nearly all descriptions is in moderate stock, and only a retail enquiry exists. We refer to our table for

COTTON -- As noted at the close of our review on Thursday | which we invite attention. last there was scarcely any disposition on the part of buyers to operate unless at a concession on prices which holders were asking, and this feeling continued in the market during ted, sellers were willing to meet buyers at about previous

figures, and the market exhibited considerable activity at quotations below. The arrivals during the week have been smaller than those of the previous one, and the quantity offering sale has become somewhat reduced. The transactions foot up 936 bales at prices ranging from 11 to 12 cents H lb., as follows: Friday, 70 bales at 114 cents for middling to good middling; Saturday, 104 do. at 111 cents for strict and good middling; Monday, 55 do. at 114 cents for strict middling, and 12 cents for middling fair; and Tuesday, 707 do. at 11 to 11 cents for low to good middling, and 12 cents for middling fair. No sales since, and market closes quiet. CORN MEAL-We have nothing new to report in this arti-

cle. The supply on market is small, and demand moderate;

-sales confined to small lots from the graneries at 90 a 95 FISH-Mullets continue to be brought to market slowly, and are in light stock; in fair demand. A lot of 215 bbls. was to Keith & Flanner; with salt. received a few days since and sold from wharf at \$5 874 for pine bbls. For store rates of Herring we refer to our table. FLOUR-Owing to the limited receipts of State brands for two or three weeks past the stock on market has become materially reduced, and is principally confined to small lots in retailers hands. In consequence a better demand has sprung up, and the price has advanced 25 cents, with sales of one or two small parcels at \$6 25 for superfine, and \$6 50 for family- the market closing firm, with a further upward tendency in prices. See table for quotations of the different

GRAIN-In the CORN market we have nothing to report. The receipts for some time past have been small, and the supply in dealers' hands has become materially reduced; as there is very little demand, however, at this season of the year, the stock may be considered fully sufficient for present use. In the absence of sales we are unable to give a correct quotation of the market .---- OATS-No late receipts, and the supply on market is exceedingly light. We note some demand, and one or two cargoes would sell readily at a fair price. PEAS-In Cow nothing has been done; no new crop have been brought in, and the market is moderately supplied with old, which are dull at 65 to 70 cents # bushel .- RICE-For clean the market remains as last reported; fair supply in store, and demand limited. See table for quotations. In the rough article nothing has yet been done in the way of sales.

HAY-None has been received during the past week, market well supplied with both Northern and Eastern make and rules dull. See table for last sales.

LIME-The stock on market has become considerably reduced within the past week or two, and dealers have but to Boston, but experienced heavy weather, causing her to little in store at present; we learn, however, that one or two cargoes are daily looked for. See table for store rates. Molasses-Is in light stock, and demand limited. We

note a lot of 100 hhds. Muscovado received coastwise on Wednesday, and small sales at 28 a 30 cents & gallon, as in POTATOES-The market is moderately supplied with both Sweet and Irish, and we notice only a light demand. The McRae & Co.

former sell at 50 a 60 cents # bushel, and the latter at \$2 a Provisions .- No change of importance to report in this market as regards prices. For N. C. cured Bacon there has been a better demand, and we note sales of some 10,000 lbs. during the week at 12 a 12½ cents per lb. for hog round. by A. H. VanBokkelen. The arrivals have been meagre, and the supply in first hands has become somewhat reduced, though it is fully adequate for present wants. We quote hams at 14 a 142 cents, but no sales. Of Western cured we notice moderate receipts, and with limited transactions the stock in first hands is accumulating. We continue former quotations-8 a 81 cents for shoulders, and 10 a 104 cents for sides-at which small sales have taken place from store .- LARD .- The market for both N. C. and Western make remains without change .-There is merely a retail demand existing, and we note a moderate supply in store. We quote small sales at 12 a 124 | Co.; with lumber. cents in bbls. and kegs .- PORK-Northern is in full stock, and we notice but a light demand. Sells from store at quo-

HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND,

FEVER AND AGUE, And the various affections consequentupon a disordered

STOMACH OR LIVER

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Hol land Professor, Borhave. Because of its great success in the market opened on Friday at a decline of 10 cents on at  $10\frac{1}{2}$ ; 78 at 11; 127 at  $11\frac{1}{2}$ ; 209 at  $11\frac{1}{2}$ ; 1000 at  $11\frac{1}{2}$ ; and most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty

country. Meeting with great success among them, I now offer it to the American public, knowing that its truly won-derful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally, instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor NOTICE.-Whoever expects to find this a beverage will

be disappointed; but to the sick, weak and low spirited, it remedial properties. The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purtle will convince you how infinitely superior it is to all these
